- Set 10 minutes

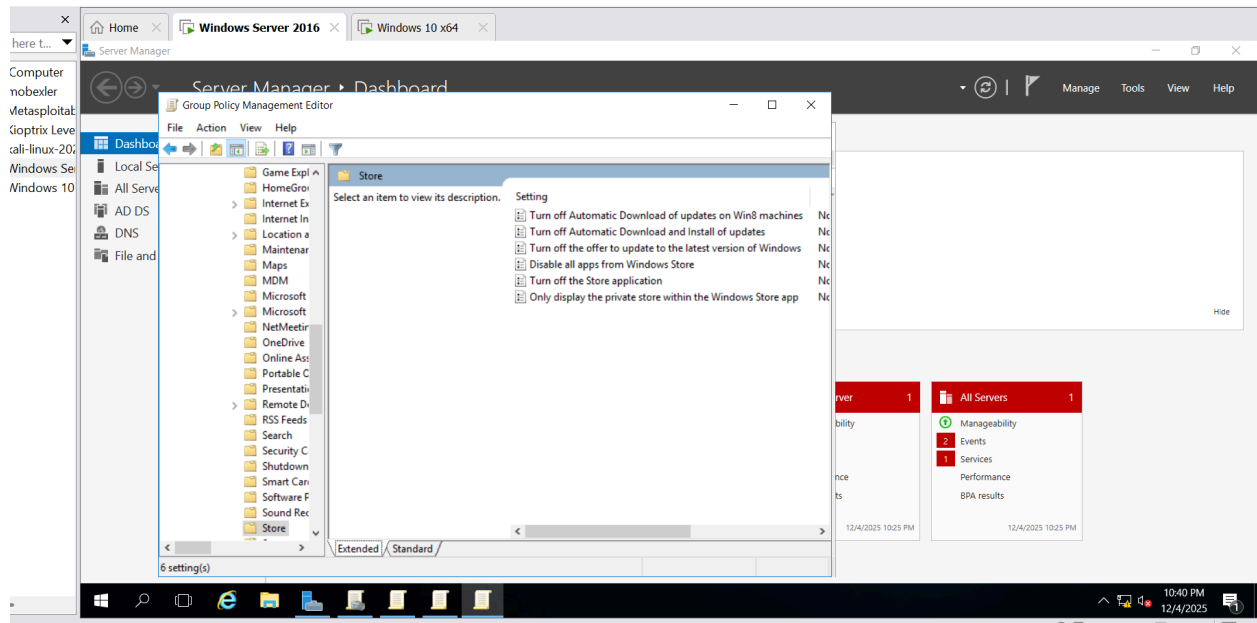

4. Create a Group Policy to block Microsoft Store for all domain users.

Step 1: Edit GPO

Navigate:

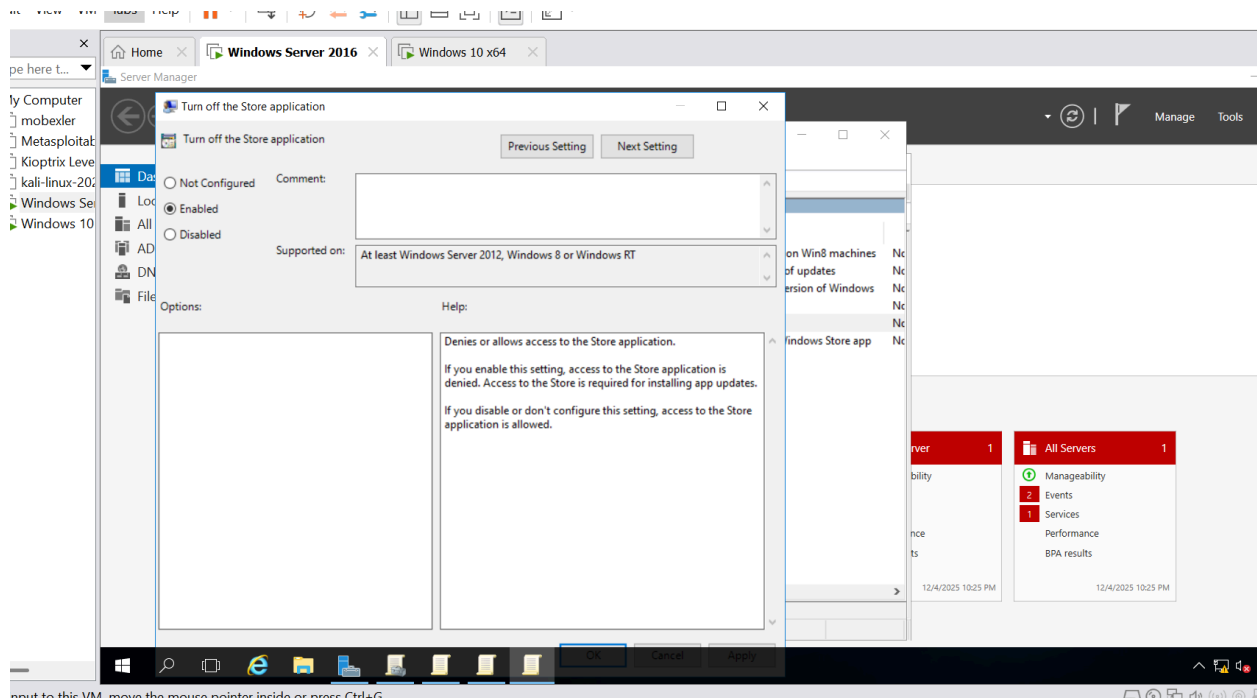

Computer Configuration , Policies , Administrative Templates , Windows Components and Store

Enable the policy:

Turn off the Store application

Set it **Enabled**

This will block Microsoft Store for all domain users.

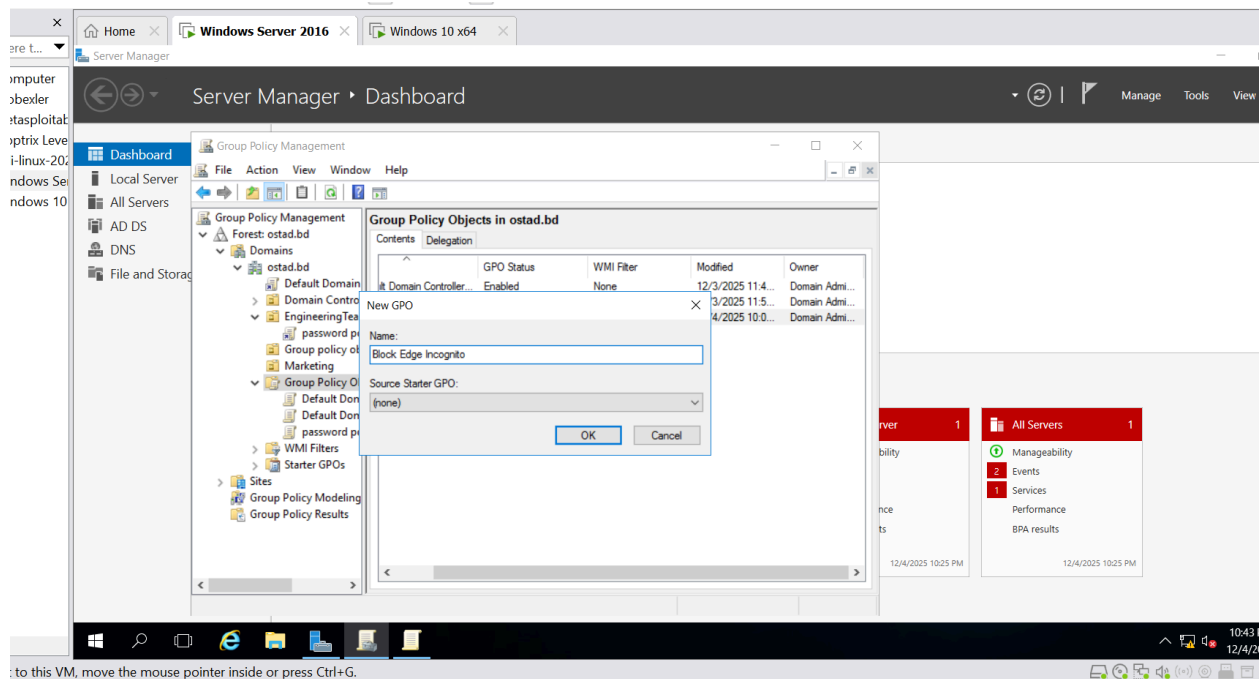

Bonus Question

5. Create a Group Policy to block Incognito (InPrivate) mode in Microsoft Edge.

As my Windows Server doesn't have Microsoft Edge , I use Internet Explorer instead.

Step 1: Create New GPO

Name: **Block Edge Incognito**

Step 2: Edit GPO

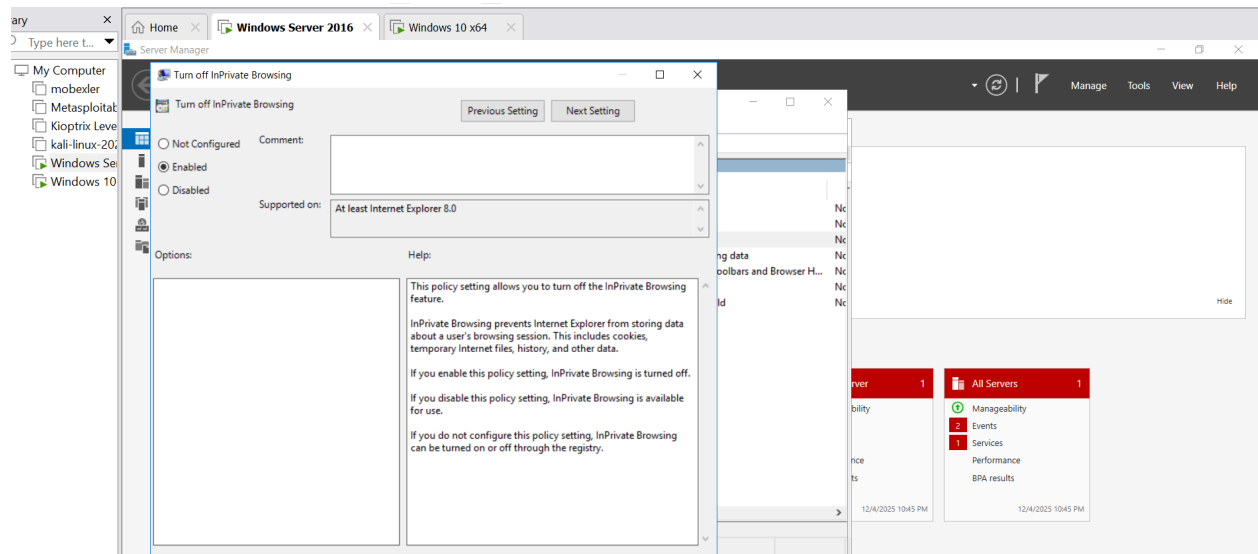

Navigate:

Computer Configuration , Policies , Administrative Templates , Internet Explorer

In privacy Folder , Find:

Turn off InPrivate Browsing

Set it to Enabled

Users cannot open InPrivate Browsing anymore.
